## About Us

PharmaCenter is a one-solution source to the natural supplement and nutraceutical industry. We have been supplying & servicing the nutraceutical and pharmaceutical industries for over a decade as a cGMP and FDA Registered Facility. Over the years, we have built strong and long lasting relationships with our partners from around the globe.

Our aim is to provide our clients with the highest quality products and services, while maintaining cost-effective pricing crucial to long term success. What sets PharmaCenter apart from our competitors is our strong commitment to quick and courteous customer service.

Our professionalism in the industry has earned us a reputation of excellence among our clients. We strive to establish long term relationships that are based on core ethics such as safety, responsibility, efficiency, professionalism, commitment, and trust. When working with PharmaCenter, you'll have access to the highest quality materials and production without losing the personal attention and customer service that comes with a family-owned business.

We appreciate and welcome the opportunity to serve you.

# CUSTOM FORMULAS

PharmaCenter  
provides custom  
manufacturing  
services for a  
multitude of dosage  
forms and innovative  
delivery technologies  
which include  
gummies, softgels,  
chews, capsules,  
tablets, and powders.

# GUMMIES

Pectin or gelatin formulations available with the right balance of flavor, base, and ingredients resulting in functional great tasting gummies with the perfect texture.

# SOFTGEL

Both vegetarian & gelatin softgel formulations are available in a wide array of colors, shapes, sizes and coating options. Our softgel capabilities provide optimal stability of active ingredients, and allow for enhanced bioavailability and absorption.

We have the ability to incorporate high payloads of active ingredients, including heat-sensitive ingredients into each soft chew. We use technology that produces a confectionary mass without applying a heat source. This versatile and flexible process guarantees content uniformity with multi or single ingredient formulas, and results in a texture that does not stick to your teeth.

# SOFT CHEWS

We can provide a variety of nutritional delivery systems to meet your specific formulation and manufacturing needs. Rely on us to duplicate or improve your existing formulas or to develop new ones using only premium-grade ingredients. All of the products we supply are manufactured in FDA registered and cGMP-certified facilities, and are routinely tested to ensure that they are effective and safe.
